International students in Ukraine during wartime (2022-2023) / edited by
Shapovalova O.O. Kyiv: "Mlyn media". 2023. 196 pg.

The publication contains statistical data on the education of foreign students in Ukraine as of January 1st, 2023, and outlines results for the survey of 3445 foreign students studying in Ukrainian universities.
The publication is aimed at a wide audience.

The survey of foreign students was conducted by the State Enterprise "Ukrainian State Center for International Education" in the period from May 4th to September 23rd, 2023, in interview and online questionnaire formats.

The statistical data on the number of individuals who studied/are studying at the level of vocational pre-university education and levels of higher education (primary (short cycle), first (bachelor), second (master), third (educational and scientific/educational and creative) was provided by the SE "Inforesource" from the Unified State Electronic Database on Education as of January 1st, 2023. The data on the number of individuals who studied/are studying at a post-graduate level, under academic mobility programs, as well as students of preparatory faculties, departments (subdivisions) on studying the state language and/or the language of instruction was provided by the SE "Ukrainian State Center for International Education" from the AS "Electronic Journal" as of January 1st, 2023.

International students in Ukraine during wartime (2022-2023)

Despite the full-scale war, foreign students' interest in Ukrainian education remains high. Our universities continue to admit foreign students for study. This is a wonderful opportunity to prove ourselves and get new ambassadors for Ukraine around the world through quality education. So let us continue to transform our educational system, to make it meet the demands of the modern world.

Oksen Lisovyi
Minister of Education and Science of Ukraine

Today, the attention of the whole world is focused on Ukraine. Ukrainian universities are actively developing international research projects and creating new educational programs including joint degree and cooperative international online learning (COIL). Ukraine is once again opening its doors to those who want to learn more about our country, study language, culture, politics, economy and society. Abroad, we are actively supporting the study of the Ukrainian language, history, and culture. These are priority areas for the Ministry of Education and Science of Ukraine: rapid development of standards for Ukrainian as a second language, and roll-out of Ukrainian language testing in accordance with international standards.

Mychailo Wynnyckyj
Deputy Minister of Education and Science
of Ukraine

Higher education is a powerful source of highly qualified specialists. In Ukraine, we are creating the conditions for students of our universities to be able to fully unlock their potential, to self-actualize in any field that they are interested in. Student life in Ukraine is very engaging; students have the opportunity not only to study in classes, but also take part in research projects and conferences, create start-ups and do sports.

Andrii Vitrenko
Deputy Minister of Education and Science
of Ukraine

Our task is to adapt the Ukrainian education system to the challenges it is facing today, and to make sure that it meets the highest global standards. We make every effort to ensure that Ukrainian and foreign students have the opportunity to get a competitive, high-quality and modern education in Ukraine. This means thinking multiple steps ahead. We continue the transformation of the education system so that our universities are of high quality and ready to compete with the world's leading universities, attracting the best students from all over the world.

Serhii Babak

**People's Deputy of Ukraine,
Chair of the Committee on Education, Science
and Innovation of the Verkhovna Rada of Ukraine**

International education is a global world trend supported by every developed country. Attracting foreign students also provides our universities with additional funds. These are potential teachers' salaries, renovated dormitories and buildings, laboratories. We must do everything so that foreign students from all over the world are confident in the quality of higher education in Ukraine, and that our country becomes an educational hub of Europe.

Yulia Hryshyna

**People's Deputy of Ukraine,
Chair of the Subcommittee on Higher Education
of the Committee on Education, Science and
Innovation of the Verkhovna Rada of Ukraine**

Ukrainian universities are active participants in the EU's Erasmus+ Program, which opens up opportunities for international mobility and cooperation in the fields of higher education, professional and vocational pre-higher education, secondary education, adult education, youth and sports. Ukrainian and foreign students study and do internships during international credit mobility, where they study the experience of the EU and have access to modern laboratories and enterprises, so that they can then apply innovative methods in Ukraine, and participate in the implementation of projects on the development of higher education.

Svitlana Shytikova
Coordinator of the National
Erasmus+ office in Ukraine

Through cooperation in the field of higher education, the whole world should see that Ukraine is a country of great opportunities, creative people and innovations. Ukrainian education should become a world-famous brand, and foreign graduates — worthy ambassadors of our country to the world.

I personally know many well settled, highly qualified and well earning Doctors who graduated from Ukraine.

Sharma Animesh (India)
Bukovinian State Medical University

Ukrainian education is more famous within the diaspora, but specifically the universities that interact with it. Ukraine was my priority and I don't regret it.

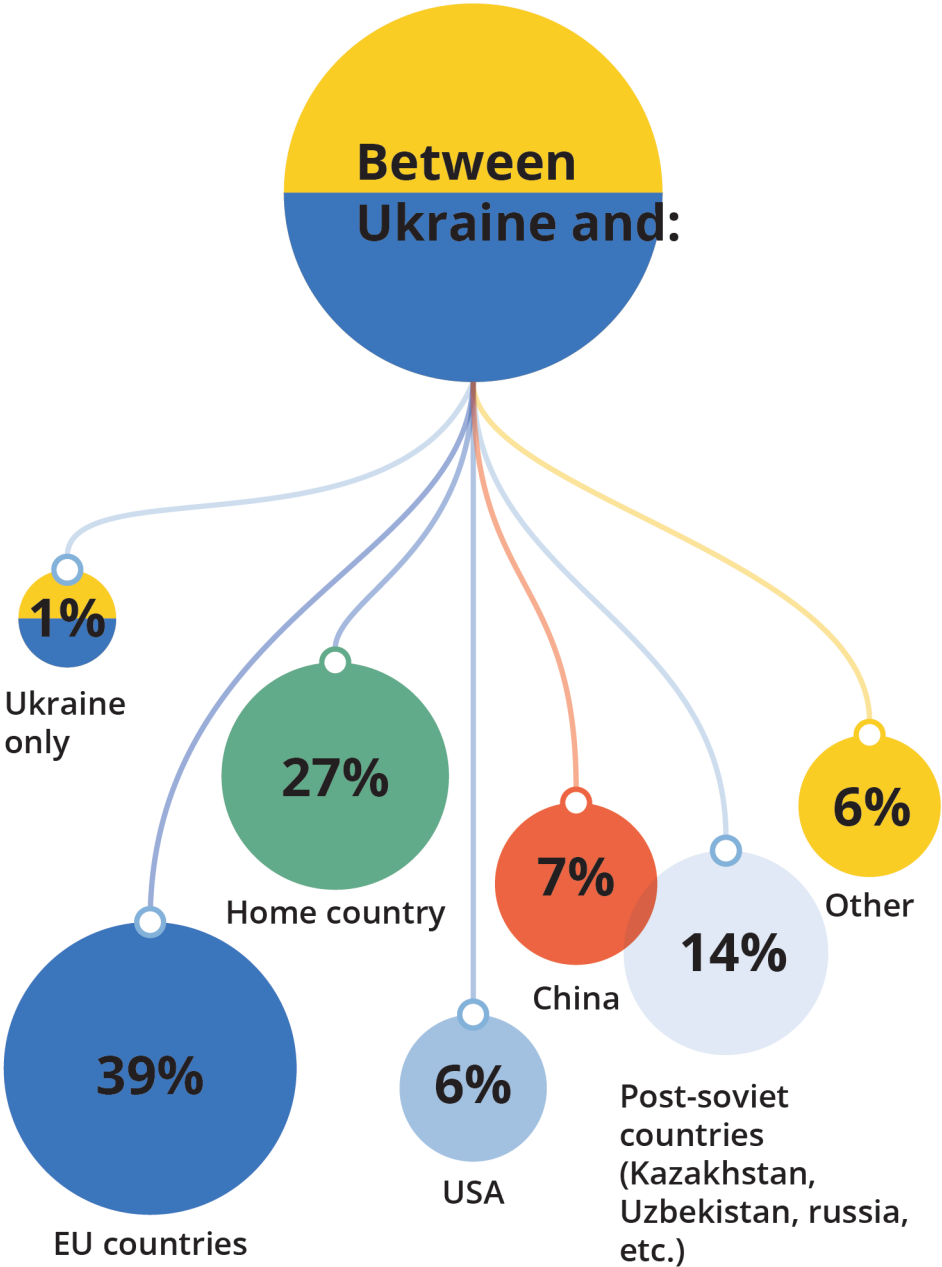

Teona Kakhiani (Georgia)
National University of "Kyiv-Mohyla Academy"

Ukrainian education is very professional. I gladly recommend my friends and acquaintances to study in Ukraine, because the teachers are highly qualified and masters of their fields. Besides, Ukrainian education is not expensive and is available to everyone. Ukrainians are a very friendly people, they often helped me, and I made a lot of friends here.

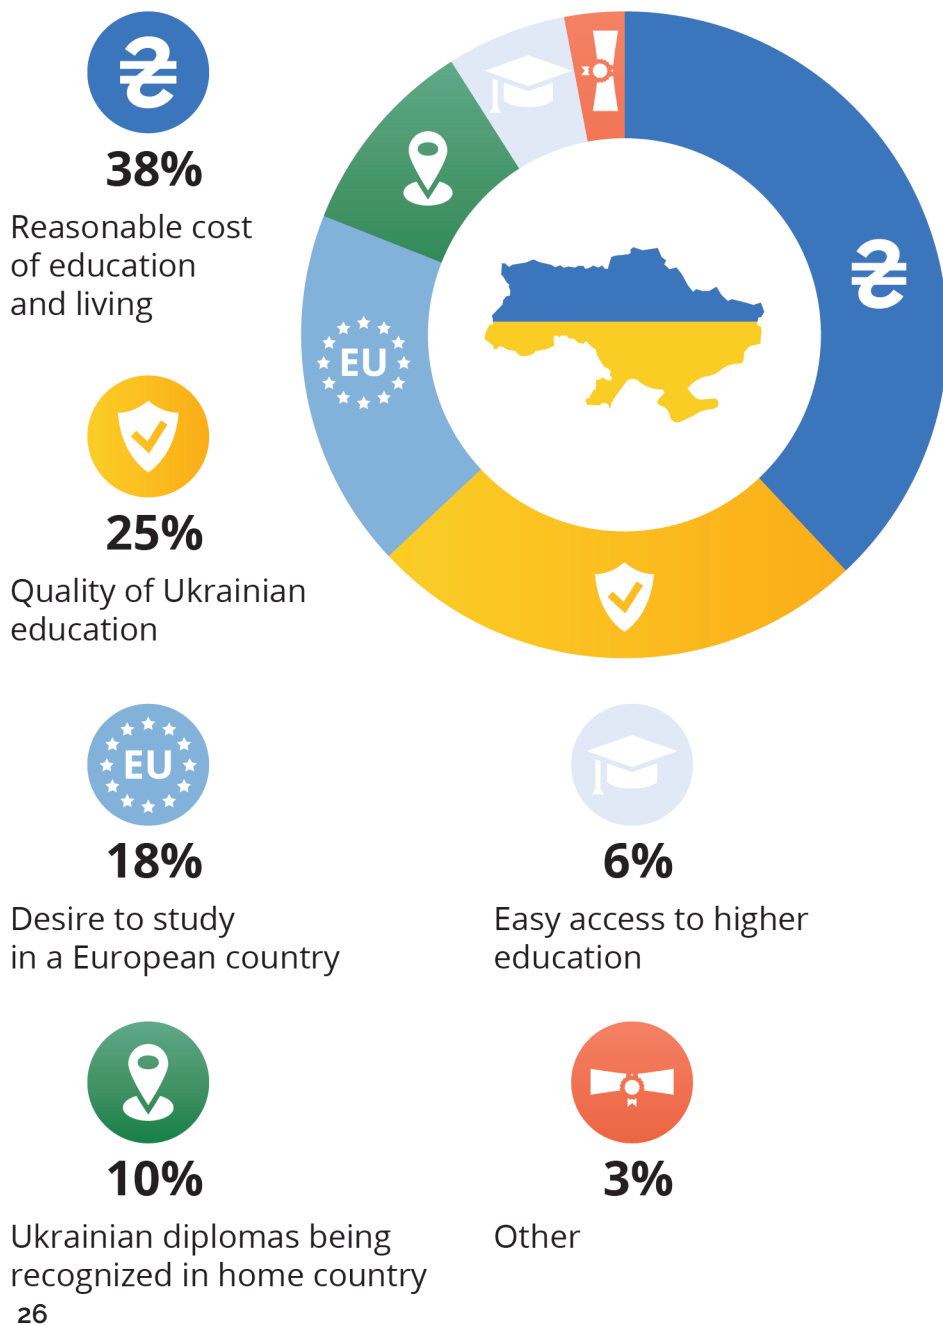

Elfeituri Hashim (Libya)
National University of Water and Environmental Engineering

1.6. What countries are foreign students choosing between when it comes to deciding where to study?

1.7. Why foreign students choose Ukrainian universities?

In China it's very difficult to get information about studying in Ukraine, since we don't have access to foreign websites. But we do have a program by which we can study only in six countries: Ukraine, Belarus, Kazakhstan, and others where Russian is spoken. To be honest, I didn't know much about Ukrainian education before I enrolled, but I did know that it was more similar to European than Chinese education. I learned that one of the best Ukrainian universities is Taras Shevchenko National University of Kyiv, so that's the one I chose... I especially liked it when I saw a photo of its red campus. It has many faculties.

Wang Xiaoqing (China)
Taras Shevchenko National University of Kyiv

Ukraine is one of the most popular study destinations in Nigeria. I also chose to study in Ukraine because I was looking for opportunities to study medicine abroad, and Ukraine was the most affordable country to study in in terms of price, it was the best option to me at that time.

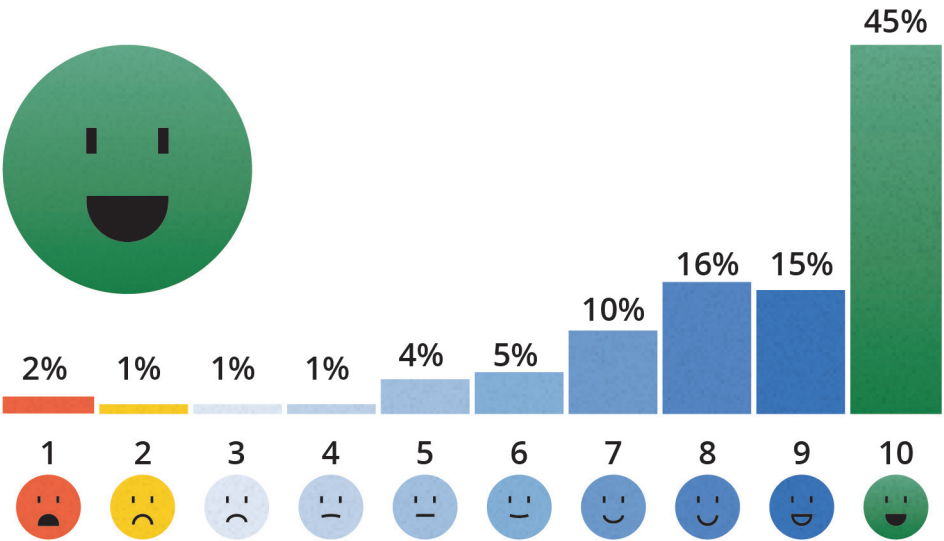

Fehintola Moses Damilola (Nigeria)
Sumy State University

I looked into regions, environment, culture, the weather; it was so similar to what I'm used to here in the United States, so it wasn't that huge of a difference; and the use of the dollar currency helped, as other places use euros, and I'm not familiar with that currency. All that made it much easier for me to transition from my country to this country and adapt to a different area where English is not spoken. That was actually a key challenge, and it was at first scary, but I conquered it. Also, I didn't know anyone when I first came here. I know a lot of students know people here, they have friends or cousins, but I didn't, so I took it as a challenge, and I'm happy I did. I also loved that the student body was very diverse. It was multicultural; I knew I was going to fit in perfectly in that environment. And the class was taught in English, which was a huge plus.

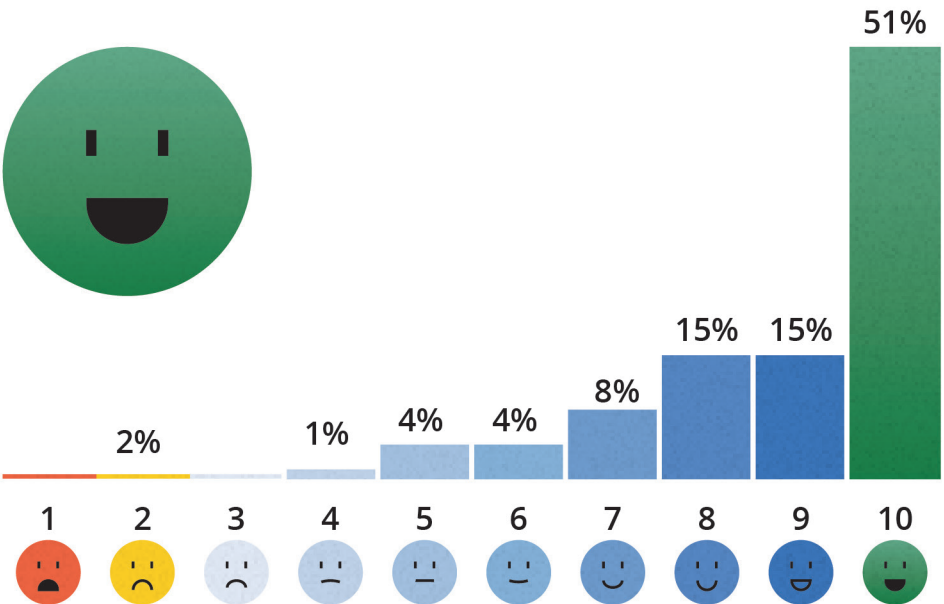

Victoria-Maria Unachukwu (USA)
I. Horbachevsky Ternopil National Medical University

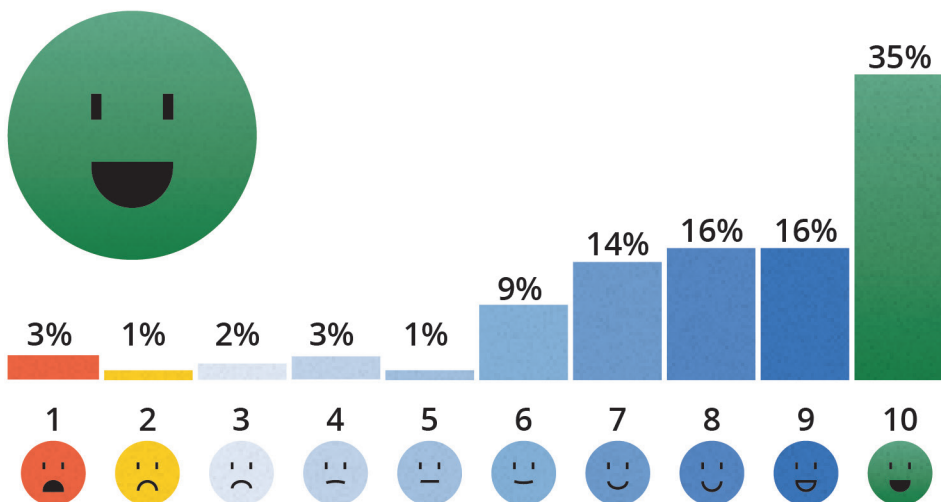

1.8. Do foreign citizens like Ukraine as a country to study in?

1.9. Do foreign students like Ukraine as a country to live in?

1.10. Are foreign students happy with education at their university?

I chose Ukrainian education because it adheres to European standards. I also researched and gathered information on Ukraine.

Onur Alp Durmush (Turkey)
Kharkiv National University of Radio Electronics

Ukraine impressed me with its hospitality and melodic language. I really liked to study Ukrainian language. Ukraine is breathtaking landscapes, delicious cuisine (though unusual to me) and open-minded people.

Aguilar Janine (Philippines)
Mariupol State University

I chose Ivan Franko National University of Lviv because this university has an excellent reputation and a high level of academic standards. Its historic heritage and experience in education made it an attractive choice for me. When it comes to the psychology specialty at a Master's degree, this field always attracted my attention with its difficulty and ability to influence other people's lives, which made me view it as my future professional field.

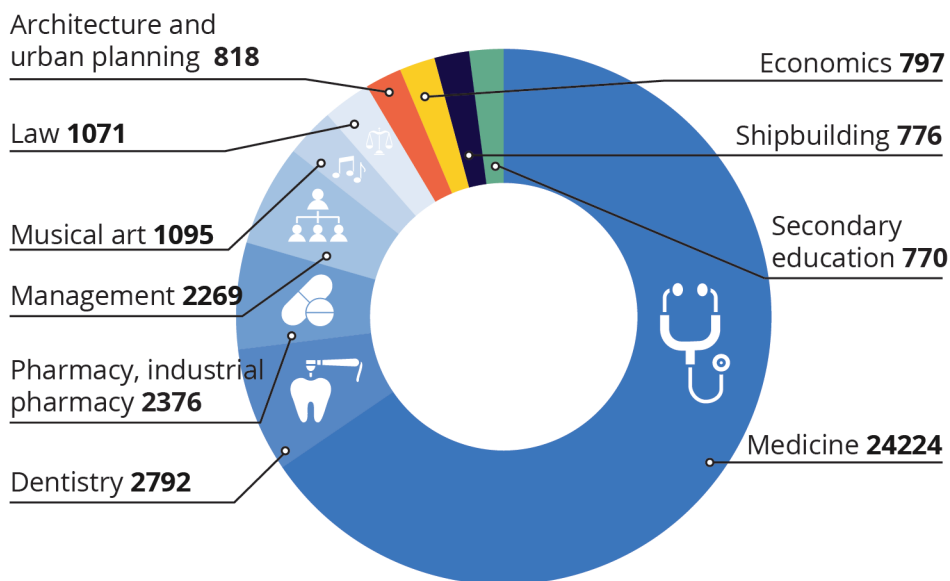

Muhammedov Kerven (Turkmenistan)

I'm currently on an incredible journey as a 5th year student at Vinnytsia National Pirogov Medical University, pursuing my childhood dream of becoming a surgeon. I chose Ukraine after I had heard many positive comments. Now this wonderful country has become my second home, and I proudly stand with brave Ukrainians in these difficult times, awaiting victory.

Anurag Krishna (India)

2.4. Most popular majors among foreign students

Ukrainian education is famous worldwide. A friend told me about study opportunities in Ukraine, and I'm glad he did. I liked the education and the country as a whole.

I decided to study at Sumy National Agrarian University because of the academic side. I study agriculture. Ukraine is the second largest food exporter in the world, known as the "breadbasket of Europe", and two thirds of Ukraine's land is black soil. All this proves that if you want to really study agriculture and learn about it, then studying in Ukraine must be the best choice. The second point is in terms of human environment, Ukraine is world famous for its literature, theater and music. All in all, studying in Ukraine I met the most welcoming Ukrainian people, the most considerate Ukrainian teachers and left precious memories in my life that I will never forget.

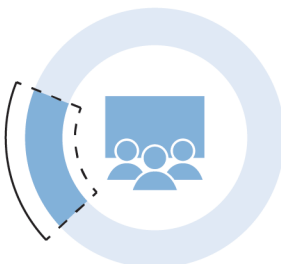

Huang Chaolin (China)

To enrol in Ukrainian universities, we can contact them directly, but usually we use educational agents, since that would make the procedure much simpler. An agent helped me get a visa and provided general support for everything, such as getting the Apostille stamp. My parents were concerned about me going to study in a country at war, and twice told me: "Think it through". Nonetheless, I was the one, who decided to be here.

I personally made the choice to study in Ukraine, but it's more of an exception, as usually in Morocco, parents make such decisions.

I always wanted to study abroad. And when the time came to choose the country, I decided to study in Ukraine, because my school friends were already studying there. Thanks to their recommendation, I spent six interesting years in Ukraine. I found friends among Ukrainian and foreign students. And now from my own experience I also recommend Ukraine to others for higher education.

Studying at Uzhhorod National University (UzhNU) has been a life-changing experience for me. When I first arrived in Ukraine, I was apprehensive due to the ongoing war situation in some parts of the country, but I found solace in the safe environment that Uzhhorod and many other cities offered. The university has provided me with a nurturing and supportive academic environment. The faculty members are not just educators; they are mentors who are genuinely invested in our success. The resources, infrastructure, and research opportunities available here have greatly enriched my learning experience. Moreover, the sense of camaraderie among the students has made me feel like I am part of a big, supportive family. Despite the challenges that come with studying abroad, UzhNU has become my second home, and I am truly grateful for the education and experiences I am gaining here.

I'm doing a post-graduate degree and will definitely be recommending my acquaintances to study in Ukrainian universities. Here there are attentive teachers, good libraries, and all the necessary opportunities for education and research. Ukraine is a wonderful country for higher and post-graduate education. At our university, there are opportunities for academic mobility and internships abroad, as well as double degree programs with European universities.

Ukraine is a country of beauty with captivating landscapes. The Ukrainian people embody diversity and embrace a rich cultural tradition steeped in warmth and discipline. Among Ukraine's many treasures, V.N. Karazin Kharkiv National University stands out as a global symbol of academic excellence. Its significant contributions to education and research have earned it recognition not only in Ukraine but around the world. When it comes to financial affordability, the cost of living in Ukraine and tuition fees are quite reasonable. This ensures that education here is not only accessible but also economically sustainable. What truly sets Ukraine apart is the exceptional quality of life it offers. Ukraine provides a high standard of living and a welcoming atmosphere that makes it feel like a second home. Situated in the heart of Europe, Ukraine is a captivating blend of natural beauty, cultural diversity, world-class education, economic sensibility, and a hospitable spirit. It is a place where students can thrive academically and personally while enjoying the best that life and education have to offer. Therefore, I have chosen Ukraine as my destination for study, and I wholeheartedly recommend it to others.
